## Front-End Developer

Web Developer who focuses on Front-End and Graphic Design development projects. Very passionate about designing beautiful and functional user experiences also focused on writing clean, elegant and efficient code.

## PENGALAMAN

### Front-End Developer (2018 - 2020)

DAT - Purworejo, Indonesia

DAT is a start-up company that focuses on working on software for government agencies. My work at the company includes: designing web application interfaces, converting display designs into HTML/CSS files, collaborating with the Back-End developer team to integrate application functions with views that have been created.

## PROJE

### TRAVELINFO

travelinfo-cek.vercel.app

This is a private project that aims to promote the potential of special interest tourism in the Wonosobo Regency and surrounding areas.
